

LUD 5466.7 DIV (10112540)IN THE CLAIMS

Claims 1-31. (Cancelled).

Claims 32. (Currently Amended) An isolated protein consisting of an immunoreactive portion of a protein encoded by an isolated nucleic acid molecule, consisting of the nucleotide sequence of SEQ ID NO: 1, wherein said immunoreactive portion of a protein is processed by a cell to form a peptide which complexes to an MHC molecule and provides a T cell response.

Claim 33. (Cancelled)

Claim 34. (Previously presented) The isolated protein of claim 33, wherein said MHC molecule is a Class II molecule.

Claim 35. (Presently presented) The isolated protein of claim 33, wherein said MHC molecule is a Class I molecule.

Claim 36. (Previously presented) A composition comprising the isolated protein of claim 32, and an adjuvant.

Claim 37. (Previously presented) The composition of claim 36, wherein said adjuvant is a saponin, GM-CSF, or an interleukin.

Claim 38. (Cancelled)

Claim 39. (Cancelled)

Claim 40. (Previously presented) The isolated protein of claim 32, wherein said immunoreactive portion of the protein is an amino acid sequence of a tumor rejection antigen.

LUD 5466.7 DIV (10112540)

Claim 41. (Previously presented) The isolated protein of claim 40, wherein said amino acid sequence is the amino acid sequence set forth in SEQ ID NO: 4, 5, or 6.
